Quantum LTO8 Tape Half Height Internal 6Gb/s SAS 13,34 cm 5.25Zoll Black 5,25" Serial Attached SCSI VXAtape VXA Kassette

Artikelnummer	991717105
Gewicht	1kg
Länge	1mm
Breite	1mm
Höhe	1mm

Produktbeschreibung

Quantum LTO8 Tape Half Height Internal 6Gb/s SAS 13,34 cm 5.25Zoll Black 5,25" Serial Attached SCSI VXAtape VXA Kassette

Produktbeschreibung:

Manufacturer Code : TC-L82AN-BR. Quantum LTO-8
Tape Drive - 12 TB (Native)/30 TB (Compressed)
- Black - 6Gb/s SAS - 133.35 mm Width - 1/2H Height
- Internal - 300 MB/s Native - 750 MB/s Compressed
- Linear Serpentine - Encryption - WORM Support.Quantum
LTO Tape Drive:Now with DATASTOR Shield Deduplication
SoftwareQuantum's LTO stand-alone drives deliver
a simple affordable all-in-one data protection
solution that customers can depend on.
Many companies can store all their data on a single
cartridge thanks to the tremendous capacity LTO
technology provides.
In addition companies can keep this data secure
using AES 256-bit encryption as tapes are transported
off-site for disaster recovery or long-term archiving.
Quantum's LTO tape drives are WORM capable allowing
companies from healthcare financial and other
related industries to meet tough regulatory requirements.
LTO technology offers backward read and write
capability providing an archive tape recovery
solution with newer-generation drives.Linear Tape
File System (LTFS) software allows customers to
simply drag and drop files to Quantum LTO tape
drives as they would to a hard drive.
This eliminates the need for backup software and
allows the information written on tape to be exchanged
easily between different users operating systems and software.
This is highly beneficial for many applications-including
media and entertainment video and imaging long-term
archiving among others-where removing the dependence

on a proprietary format is important.
LTFS is compatible with Windows Linux and Apple
Mac operating systems.Quantum tape drives now
include DATASTOR Shield™
backup software with deduplication to supercharge your backup.
Quantum and DATASTOR have teamed up to provide
the first backup with deduplication straight to tape.
This technology which reduces backups significantly
(up to 20x) allows you to store more data per
tape than competitive models.
Technische Details:

Leistung
Eingebaut
Ja
Typ
LTO
Kompression Verhältnis
2.5:1
Schnittstelle
Serial Attached SCSI (SAS)
Produktfarbe
Schwarz
Unterstützte Sicherheitsalgorithmen
256-bit AES
Speichermedien
Kapazität (komprimiert)
30000 GB
Unterstützte Medientypen
LTO-8, LTO-7
Datenübertragung
Backup-Leistung mit Komprimierung
2700 GB/h
Laufwerk, Übertragungsrate
750 MB/s
Datenübertragungsrate
6 Gbit/s
Betriebsbedingungen
Luftfeuchtigkeit in Betrieb
20 - 80%
Temperaturbereich in Betrieb
10 - 38 °C
Temperaturbereich bei Lagerung
-40 - 60 °C
Luftfeuchtigkeit (außer Betrieb)
10 - 90%
Höhe bei Betrieb
0 - 3048 m
Gewicht & Abmessungen
Größe
13,3 cm (5.25 Zoll)
Verpackungsinhalt
Anzahl
1
