Planet RS232/RS-422/RS485 to Ethernet 1-Port TCP/IP RS-423 RS-485 RS-232

Artikelnummer	999184884
Gewicht	1kg
Länge	1mm
Breite	1mm
Höhe	1mm

Produktbeschreibung

Planet RS232/RS-422/RS485 to Ethernet 1-Port TCP/IP RS-423 RS-485 RS-232

Produktbeschreibung:

1x DB9 interface supports RS232, 2-wire RS485,
4-wire RS485 and RS422 operation Asynchronous
serial data rates up to 921600bps Data mode includes VCOM,
RFC2217, TCP Server, TCP Client, UDP, Remote Pair,
Modbus converter server / client and Serial Telnet
modes   Ethernet Interface: 1x 10/100BASE-TX
RJ45 interface with auto MDI/MDI-X function
Management: IPv4 and IPv6 dual stack management
Remote Management Interfaces IP-based Web management
Telnet console management Windows-based VCOM utility
supports searching,
monitoring and configuration setting IP NTP (Network
Time Protocol) Standard TCP/IP interface and
versatile operation modes Software Protocol supports ICMP,
TCP/IP, UDP, HTTP server, DHCP client, Telnet
server/client Serial Operation mode selected
via management interface Pair Connection mode
for connecting two serial devices over a network
Allows a maximum of 4 hosts to be accessed as
TCP client mode Firmware upgrade via HTTP protocol
Accessible IP security control to prevent illegal
users Event notification Remote syslog server
SNMP trap DHCP client for IP address assignment
PLANET Smart Discovery utility automatically finds
the client devices on the netw Case and Installation:
Compact size for easy Installation Standalone
-- Wall mountable or DIN-rail mounting (optional
accessory) Co-works with PLANET MC family Media
Chassis (MC-700/1500) External power adaptor 5V DC,
2A max. Supports 6000 VDC Ethernet ESD protection

-10 to 60 degrees C operating temperature Supports
extensive LED indicators for network diagnosis
Reset button for resetting to factory default
Cost-effective Solution for RS232/422/485 Serial-to-Ethernet
Application:PLANET ICS-110 Serial Device Server
is specially designed to convert RS232,
RS422 or RS485 serial communication to Fast Ethernet
networking to extend the network distance efficiently
and inexpensively. There is one 10/100BASE-TX
RJ45 port in the ICS-110 and its operating temperature
ranges from -10 to 60 degrees C for your network needs.
The ICS-110 is a time-saving and cost-effective
solution for users and system integrators to quickly
transform their serial devices into the Ethernet
network with no need of replacing the existing
serial devices and software system.
Remote Management:As the ICS-110 provides an easy
serial-to-Ethernet connectivity and connection
to a TCP/IP network,
the remote network system can thus be managed
efficiently via its Web,
telnet and VCOM management interfaces. It supports
both application and serial operation modes for
alarm or IP address connection,
which saves the network administrator's time in
detecting and locating network problems without
visual inspection of the cabling and devices.
 Multiple connection options are available for
large networking environment as well.
Easy Chassis Installation:The ICS-110 can be used
as a stand-alone unit or a slide-in module to
PLANET Media Converter Chassis (MC-700 and MC-1500 chassis).
The media chassis can assist in providing DC power
to the ICS-110 and can be DIN-rail or wall mounted
for efficient use of cabinet space,
without the need of replacing the existing serial
equipment and software system.
Technische Details:

Allgemeines
Typ
Converter
Diverse Produktfeatures (Wasserdicht, Lautstärkeregler, ...)
Managed; Stand-Alone
Schnittstellen/Konnektivität
Portzahl
1-Port
Universelle Schnittstellen
RS-423; RS-485; RS-232
Netzwerk
Netzwerkprotokolle
TCP/IP
Netzwerkstandards
Ethernet
Netzwerkports
RS-423; RS-485; RS-232
Technische Daten
Übertragungsrate

0,1 Gbps
Netzwerk/Telefon-Zusatzfunktionen
MDI Port-Erkennung
Abmessungen / Gewicht
Abmessungen
97 x 70 x 26 mm
