## Produktbeschreibung

Datalogic Memor K Removable Spare Battery 3800 mAh Ladegerät

Produktbeschreibung:

Removable Spare Battery 3800 mAh for Datalogic Memor K terminal.

One battery is deliver with every new terminal, however it is recommanded to sell and extra battery with each terminal to make sure operators can run several shifts with the same unit.

The spare battery can be charge via the single dock charger (94A150111).

This Swappable battery can be easily change by the user without tool.

With full capacity, the battery can cover a 12 hours shift depending of the usage and temperature.

Technische Details:

Allgemeines  
Produktlinie
