Produktbeschreibung

Fibaro Home Center 3 Lite 900 MHz 512MB LPDDR3 4 GB eMMC

Produktbeschreibung:

Go your first steps with smart home automation.
The FIBARO Home Center 3 Lite has been designed
for people who want to start a unique smart home
adventure in their apartments or small houses.
FIBARO Home Center 3 Lite is the heart and mind
of a smart home that constantly cares for the
comfort and safety of your entire family.
The smart hub manages and communicates with all
smart devices - receives data from sensors,
processes all the data and gives an output to
perform appropriate actions.Z-Wave technology
offers the integrations of more than 2.000 different
third-party products.
The products works with a variety of technologies
and can be used to control electronics and household devices,
lighting, blinds, alarm, monitoring or watering
system - with just a single button,
gesture or word. Live comfortably, peacefully
and economically with FIBARO.
FIBARO smart home takes you and your family everyday
comfort and safety to a different level.
Manage energy consumption at every single opportunity.
Make it all happen with Home Center 3 Lite Smart Home hub.
Make synergy with the environment. FIBARO brings
eco trends to life by reducing carbon footprint in your home.
Once and for all, lower energy consumption and
heating bills.
FIBARO provides exceptional comfort. It's a lot
more than just convenience,
or time-saving facilitations. It's also a sense

that everything in the apartment is under control.
A sense of security. Security is a major value
we can provide for ourselves and our family or friends.
With FIBARO, you are sure that you and your house
are always safe.
Data security. Highest security level of access
to your home and your data.
Communication between devices and smart home hub
and all the passwords are encrypted.
